

COSTED TREATMENT PLAN

CONSULTATION AND INVESTIGATION PRICES

| TYPE OF INVESTIGATION | WHERE TO PAY | COST | SELECT |
|--|----------------------|------|--------|
| Initial Consultation including trans vaginal ultrasound scan | Outpatient reception | £215 | |
| Review Consultation | Outpatient reception | £100 | |
| Investigation or early pregnancy Pelvic Ultrasound Scan | IVF Unit | £85 | |
| Hysterosalpingogram contrast sonography (HyCosy) | Outpatient reception | £435 | |
| Saline infusion sonography | Outpatient reception | £435 | |
| Semen Analysis | Outpatient reception | £85 | |
| Post Vasectomy Analysis | Outpatient reception | £50 | |

Patients being co-managed with another clinic are charged per investigation. This includes patients undergoing treatment overseas and who attend the IVF unit for the treatment ultrasound scans and blood tests. See the section on How, Where and When to pay Page 4

QUERIES:

If you have any queries regarding the costs provided to you please do not hesitate to contact the WFI Service Administrator Nicola Watts on 07980 757781 or via e:mail on Nicola.Watts@wales.nhs.uk or via the below QR Code:

ASSISTED CONCEPTION TREATMENT PACKAGE PRICES (Drug costs are not included)

| TYPE OF TREATMENT PACKAGE | WHERE TO PAY | COST | SELECT |
|--|--|---------|--------|
| Clomid monitored cycle | IVF Unit | £435 | |
| IUI (Intra Uterine Insemination) | IVF unit | £ 1050 | |
| IVF (includes review consultation if within 3 months) | IVF unit | £ 3,575 | |
| ICSI (includes review consultation if within 3 months) | IVF unit | £ 4125 | |
| FET (Frozen Embryo Transfer) | IVF unit | £ 975 | |
| Dummy Embryo Transfer | IVF unit | £100 | |
| Egg freezing cycle | IVF unit | £ 3300 | |
| Egg donor/ recipient cycle (including freezing) | IVF unit | £ 7150 | |
| Follicle/Cycle Monitoring | IVF unit | £ 435 | |
| Individual Follicle/Cycle Monitoring Scan | IVF unit | £155 | |
| Refunds and Cancellation fees | Please see Pages 5 & 6 for further information | | |

These package prices do not include drugs or initial consultation fee. Please allow £800 - £1,500 for drugs and initial consultation price is listed above. Embryo freezing and 1 year's storage are included in IVF and ICSI package prices. Additional treatments that are not included in the package price are listed overleaf.

COSTED TREATMENT PLAN

ADDITIONAL TREATMENT PRICES

BLOOD TEST PRICES

(Prices for blood tests are a general guide – other tests requested will be charged individually)

| TYPE OF BLOOD TEST | WHERE TO PAY | COST | SELECT |
|--|--------------|-------|--------|
| Prolactin | IVF Unit | £50 | |
| Thyroid Function | IVF Unit | £50 | |
| AMH | IVF unit | £ 85 | |
| Follicle Stimulation Hormone (FSH) & Oestrogen | IVF unit | £ 75 | |
| Hep B, Hep C, HIV and Syphilis blood test | IVF unit | £ 125 | |
| Chlamydia and Gonorrhoea screening | IVF unit | £ 55 | |
| Karyotype (Chromosomes) | IVF unit | £ 290 | |
| Y deletion (Chromosomes) | IVF unit | £ 275 | |
| CF screening | IVF unit | £200 | |

ADDITIONAL TREATMENTS THAT MAY BE REQUIRED BUT ARE NOT INCLUDED IN THE PACKAGE PRICE

| TYPE OF TREATMENT | WHERE TO PAY | COST | SELECT |
|---|-------------------|--|--------|
| Fertility Counselling | IVF unit | Inclusive of treatment price | |
| Counselling for egg/sperm donation or surrogacy | IVF unit | Inclusive of treatment price | |
| Donor Sperm to be sourced by patient from agreed supplier | | | |
| General Counselling – all follow-up sessions | IVF unit | £55 per hour, £80 per 1.5 hr | |
| Calcium Ionophore | IVF Unit | £165 | |
| Sedation cost for Embryo Transfer | IVF unit | £165 | |
| Sperm Freezing prior to IVF (including first year of storage) | IVF unit | £ 385 | |
| Specialist embryo culture for recurrent implantation failure | IVF unit | £ 440 | |
| Endometrial scratch | IVF unit | £165 | |
| Cyst drainage under sedation | IVF unit | £550 | |
| Annual storage fee After first year of initial freeze | IVF unit | £ 305 | |
| Self-funding Sperm Storage | IVF Unit | £550 first year including required screening £305 every year after | |
| Transfer out of Frozen samples Administration fee | IVF unit | £ 55 | |
| Embryo or Egg Biopsy | IVF unit | £ 1,100 | |
| <u>Pre-implantation Genetic Screening (PGS)</u> up to 8 samples | IVF Unit | £ 2,200 | |
| PGS each additional sample | IVF unit | £ 220 | |
| <u>Pre-implantation Genetic Diagnosis (PGD)</u> development fee | IVF unit | POA | |
| PGD test fee up to 8 samples | IVF unit | POA | |
| PGD each additional sample | IVF unit | £ 275 | |
| Genetic Counselling | Direct to company | £165 per session | |

WHAT IS INCLUDED IN THE PACKAGE TREATMENT PRICES

IVF AND ICSI CYCLES

- Nurse pre-treatment Co-ordination appointment
- Initial infectious diseases and screening for treatment blood tests and ultrasound scans during the treatment cycle
- Egg collection procedure
- Intravenous sedation during egg collection
- Embryo Transfer
- Medical and nursing care and advice before, during, and after treatment up to the pregnancy test and early pregnancy scan when treatment is successful
- HFEA licence fee
- Embryo glue
- Assisted hatching where appropriate
- Pregnancy ultrasound scan
- A review appointment within three months of the pregnancy test
- ICSI cycles include the Intracytoplasmic Sperm injection procedure

FET CYCLES

- Nurse pre-treatment Co-ordination appointment
- All blood tests and ultrasound scans during the treatment cycle
- Embryo Transfer
- Medical and nursing care and advice before, during, and after treatment up to the pregnancy test and early pregnancy scan when treatment is successful
- HFEA licence fee
- Embryo glue
- Assisted hatching where appropriate
- Pregnancy ultrasound scan
- A review appointment within three months of the pregnancy test if required

IUI CYCLES

- Nurse pre-treatment Co-ordination appointment
- All blood tests and ultrasound scans during the treatment cycle
- Insemination procedure
- Medical and nursing care and advice before, during, and after treatment up to the pregnancy test and early pregnancy scan when treatment is successful
- HFEA licence fee for donor cycle
- Pregnancy ultrasound scan

EGG FREEZING CYCLES

- Nurse pre-treatment Co-ordination appointment
- All blood tests during the treatment cycle
- All ultrasound scans during treatment
- Egg collection procedure
- Intravenous sedation during egg collection
- Medical and nursing care and advice before, during, and after treatment up to the pregnancy test and early pregnancy scan when treatment is successful
- Egg Freezing
- HFEA licence fee

EGG DONATION CYCLE

- Nurse pre-treatment Co-ordination appointment
- All blood tests during the treatment cycle
- All ultrasound scans during treatment
- Egg collection procedure
- Intravenous sedation during egg collection
- Embryo Transfer
- Intracytoplasmic Sperm injection procedure
- Medical and nursing care and advice before, during, and after treatment up to the pregnancy test and early pregnancy scan when treatment is successful
- Embryo freezing
- HFEA licence fee
- Pregnancy ultrasound scan
- A review appointment within three months of the pregnancy test

HOW TO PAY

We accept payment by credit or debit cards.

- Credit and debit card payments can be made over the telephone prior to treatment. To make a credit/debit card payment please telephone the WFI Neath Administration Team on **01639 862698** or **WFI Cardiff Administration Team on 02921 843047**.
- You will be provided with a receipt for your payment showing an authorisation code. This will be your proof of payment and the receipt can be emailed or posted to you.
- Payments by card will show on your statement as WFI Professional Services. .

WHEN AND WHERE TO PAY

CONSULTATION AND INVESTIGATION TESTS

You will be asked to pay for each consultation appointment prior to the day of your appointment. You should also pay for any planned investigations or blood tests at the same time. Your appointments for these tests cannot be made until you have made the payments.

TREATMENTS

Before you start any treatment you will need to have a nurse co-ordination appointment. You can telephone the IVF unit to make this appointment.

ADDITIONAL TREATMENTS

If you are planning to have an additional procedure, you should pay for these at the same time as your treatment payment. If the decision to have these procedures is not made until after your egg collection (eg conversion from IVF to ICSI), then we ask you to pay on the day of treatment.

Patients who are having PGS or PGD will pay the package price for their cycle i.e. ICSI with the additional cost for the PGS or the PGD at the same time. An embryologist will explain the tests required and the difference between the development and test fees.

ANNUAL STORAGE FOR EMBRYOS, EGGS OR SPERM

An annual storage fee of £275 is required. (Please note for IVF and ICSI treatment the first year of storage is included.) All patients receive a reminder letter up to six months prior to the invoice being issued. All patients are given the option to continue with their storage or to discard their samples. Please contact our WFI Service Administrator, Nicola Watts on 07980 757781 for further information.

REFUND INFORMATION

Occasionally, patients choose to delay the start of their treatment or decide not to go ahead with treatment at all. If this happens, then we will make a full refund of any treatment costs that you paid to your original payment card. If you would like to apply for a refund, please speak to our WFI Service Administrator, Nicola Watts on 07980 757781 or via e:mail at: Nicola.watts@wales.nhs.uk – the below QR code can also be used to contact Nicola.

Unfortunately it is sometimes necessary to discontinue treatment for medical reasons, which can be due to poor or excessive response to the treatment drugs, or a co-incidental development of some other condition during the treatment. Depending on the stage of treatment at cancellation, a partial refund may be due. Refunds will be made to the debit or credit card that your original payment was made with. Full details of the cancellation fees per treatment type are in the table below.

IVF, ICSI, Egg Freezing or Egg Donation cycle

If your cycle is discontinued for medical reasons before any drugs are taken, we will refund you the cost of the IVF Treatment Package. We cannot make any refunds for the cost of pre-treatment investigations or the cost of drugs for the treatment cycle.

If an IVF, ICSI, Egg Freezing or Egg Donation cycle is discontinued for medical reasons after the drugs have started and before any eggs are collected, there will be a refund of the IVF Treatment Package cost less the cancellation fee.

If you are having an IVF, ICSI cycle and your embryo transfer is cancelled because you are at risk of hyperstimulation syndrome (OHSS), your embryos will be frozen and you will be offered a frozen cycle (FET) once you have recovered from the OHSS. If this happens, you will be offered one Frozen Embryo Transfer (FET) once you have recovered. Any subsequent FET's will be chargeable.

IUI

In the event that insemination does not take place but you have already started the stimulation drugs, a refund will be given less the cancellation fee. We do not refund any costs relating to the pre-treatment procedures or drugs. If you start an IUI cycle but the cycle is converted to IVF because of over response, you will be asked to pay the additional cost i.e. the difference between the cost of IUI and IVF.

DONOR SPERM CYCLE

If your treatment using donor sperm is cancelled for any reason, then a refund will be offered according to the criteria as set out above, depending on the type of cycle. Payment for the donor sperm cannot be refunded.

FET

If an FET cycle is cancelled for medical reasons before your embryos are thawed, we will refund the full cost of the Treatment Package cost less a cancellation fee. If when the embryos are thawed they fail to thaw successfully, there will be no refund. We are not able to refund the cost of drugs.

PGD & PGS

Development costs for PGD are paid upfront and there is no refund for this. If embryos or eggs are biopsied then you are liable for the biopsy fee. If genetic analysis is performed then you are liable for the PGS or PGD fee. Occasionally analysis fails, contamination occurs or there are no normal embryos to transfer. There is no refund in this situation.

REFUND AMOUNTS FOR CANCELLATIONS

| | |
|---|--|
| Cancelled IVF or ICSI before medication is started | £ 3000 or £3500 depending on treatment |
| Cancelled IVF or ICSI after one treatment scan | £ 2750 or £3250 depending on treatment |
| Cancelled IVF or ICSI cycle after more than one scan but before egg collection | £ 2450 Or £2950 depending on treatment |
| Cancelled IVF or ICSI after egg collection if no eggs collected or failed fertilisation | £250 |
| Cancelled IUI cycle prior to insemination | £ 600 |
| Cancelled FET before embryo thaw | £ 500 |
| Cancelled FET if all embryos fail to thaw | £250 |

TERMS & CONDITIONS OF TREATMENT AND PAYMENTS

Private medical insurance companies do not generally cover assisted conception treatments but you may be covered for some consultation appointments, investigations and surgical procedures. Patients will be required to make payments directly at the time of the appointment or treatment and if appropriate, claim the cost retrospectively from the medical insurance company.

Patients having fertility treatments will need to pay for treatment prior to booking their nurse co-ordination appointment.

Treatment must start no more than three months from the date of your last consultation appointment. If you delay starting your treatment you may incur additional costs as some investigation tests may need to be repeated.

In the event that additional treatments are provided, we expect patients to pay for these prior to or on the day of the treatment.

If additional treatments have taken place and no payment is received, we will invoice patients for the outstanding amount and will expect payment to be made within 14 days of the date of the invoice.

In the event of payment not being received, following a reminder, we will instruct a debt collection company to commence proceedings to recover the debt. Should this be necessary, debt collection, legal and administration fees and statutory interest will be added to the debt.
